

Islands for sections aa-US100 / US150 / US200 / US50*

The Upstand Trims can be formed into Islands. Concealed fixing can be achieved by use of Suspension Bar ref : "aa-CH20". By adhering to the suspension criteria detailed, module sizes of 1215mm wide by any length can be suspended utilising the Suspension Bar method. Wider Islands can be created by independently suspending the Tee Bar. Suspension Bars must be fixed in position by the use of suitable fixing Screws.

* Please note: Reduced height suspension bar will be required for sectionm aa-US50
